

2011 Edition

PREFACE5

INTRODUCTION6

GETTING READY7

TOOLS YOU'RE GOING TO NEED9

Basic hand tools9

Handling of screws..... 15

The proper ways of taking things apart and putting them back together 18

BASIC THEORIES OF GAS GUN ARCHITECTURE	20
The anatomy of a gas handgun	21
Possible points of failure	44
Possible upgrades and performance optimization tricks	54
UPGRADE & MAINTENANCE Q & A.....	59
How does the frame look?.....	59
And how does the trigger mechanism fit in?	59
FPS increase in meter readings VS performance increase in a practical sense: the law of diminishing marginal gain in performance.	64
What are the differences between 134a, Green Gas and Red Gas?	65
How about CO2?.....	65
When should I use grease and when should I use lubricant?.....	69
Proper gas charging and handling techniques.....	70
Double Action VS Single Action.....	72
Can you turn a GBB into a fixed slide NBB?	72
0.20g BBs versus 0.25g BBs versus 0.30g BBs: the heavier the better?.....	73
Does FPS always go hand in hand with Joule?.....	73
What is the difference between the FPS system and the Joule system?	73
How do you use FPS to measure Joule?	73

How do you use FPS to give an estimate of the range?	73
What is wrong with the soda can test?	76
What is right with the soda can test?.....	76
What is the most accurate way to measure FPS?	77
How does a “regular” valve look?	79
What tool is necessary for valve removal?.....	79
Can you show me how to use a basic speed tester?	81
What are the key elements of a high accuracy setup?	84
How to improve accuracy with short barrel?	86
Can a long barrel deliver higher accuracy and range?	86
What is good about a high precision barrel?.....	88
How to maximize the effectiveness of a high precision barrel?.....	88
What is the drawback of using a high precision barrel?.....	88
What can cause the hopup rubber to break?	90
I have to wind my hop almost all the way up just to get flat flight. What is wrong?	90
Why is fixed hopup not desirable?	90
What are the legal restrictions?	93
How to seek repair service if I don’t want to do it myself?	95
Is it good to get into the business of selling gas pistols?.....	96

Why do we see so many cheap clones around?..... 96

What is the issue on trade dressing?..... 96

What kind of changes had the China-made airsoft guns brought to the market?..... 97

Is it going to be easy to set up my own brand of airsoft products? 97

How is a gas powered airsoft gun different from a RAM (Real Action Marker)? Is conversion between the two architectures possible? 98
